

Tree of *Life*

Our Commitment to Sustainability

At Dusit Thani Manila, sustainability is one of our core values. We are committed to maximising the use of locally sourced products and ingredients, celebrating the richness of our local bounty while reducing our environmental footprint. In line with our advocacy, we strictly prohibit the sale and use of vulnerable and at-risk species in all our dining outlets.

To support the preservation of marine life and promote responsible sourcing, we have identified the following eight species that are prone to be overfished or harvested using environmentally harmful practices.

These will not be featured in any of our menus:

Shark and Shark Fin
Sea Turtles and Eggs
Chilean Sea Bass
Mekong Giant Catfish
Wild Atlantic Goliath Grouper
Wild Orange Roughy
Parrotfish
Napoleon Humphead Wrasse

Thank you for joining us in this meaningful initiative towards a more sustainable future.
